BULBS.

NEW RANUNCULUS

"Claremont" Super Hybrid No. 9

Splendid New Giant Double Flowering Strain

Comparative tests which we have conducted during the past few years have shown the "Claremont" Hybrids to be very definitely

The Finest Strain Ever Introduced

No other plant in commerce can produce such a riot of color as this "Claremont" Hybrid.

This remarkable Ranunculus is

Indispensable for Exhibition

It is undoubtedly the largest flowered variety in cultivation, huge flowers four to five inches across being produced in such profusion that the plants are literally hidden. The color range, which is the most varied we have yet offered, embraces pure white, pinks and yellows in all shades, brilliant scarlets, vivid apricots, and a full range of all shades incidental to these colors.

Notwithstanding immense size, the flowers are in no way coarse and the general quality is superb. Exceptionally heavy crops of flowers are obtained and for either exhibition purposes or garden decoration

The Strain Stands Without a Peer

20/- per 100, 10/6 per 50, 5/6 per 24, 3/- per 12.

BULBS.

ANEMONE

"Claremont Scarlet Emperor"

An outstanding Anemone of the GIANT SINGLE FLOWERED type. The VIVID SCARLET FLOWERS, often up to 6½ INCHES IN DIAMETER, are borne in profusion on the long clean stems reaching as far as TWO FEET ABOVE THE FOLIAGE. Since we first introduced "Claremont Scarlet Emperor" the strain has had constant reselection and now is the acme of perfection.

15/- per 100, 8/- per 50, 4/6 per 24, 2/6 per 12.

ANEMONE

"Claremont Blue Bonnet"

After many years careful reselection and improvement this magnificent Anemone is now offered for the first time.

We take both pride and pleasure in contributing "CLAREMONT BLUE BONNET" to the Horticultural World, firstly on account of the true magnificence of the blooms, and secondly, on being able to fulfil the long standing demand for a BRILLIANT BLUE ANEMONE.

In all respects "CLAREMONT BLUE BONNET" is the equal of, and a fitting companion to, our celebrated "CLAREMONT SCARLET EMPEROR." The flowers are of the GIANT SINGLE type, often up to 6½ inches in diameter, and are borne on stout stiff stems up to two feet high. COLOR CLEAR BRILLIANT BLUE.

20/- per 100, 10/6 per 50, 5/6 per 24, 3/- per 12.

In offering the above two Anemones, we would particularly stress the value of both

"CLAREMONT BLUE BONNET" and "CLAREMONT SCARLET EMPEROR" FOR WINTER FLOWERING PURPOSES.

For hardness and long flowering propensities there is nothing in the whole Anemone family to equal these plants. Either a GALAXY OF BLUE OR A RIOT OF DAZZLING SCARLET can now be obtained by planting these bulbs.

Read what the Horticultural Editor of the "West Australian" says of "Claremont Scarlet Emperor":—

"Some months ago I drew attention to a beautiful Anemone named 'Scarlet Emperor.' This Anemone is now in flower and its brilliant scarlet blooms are really magnificent. Some I saw recently were fully 6 inches across. As the flowers are carried on stout stems, they are ideal for cutting. When grown in good soil 'SCARLET EMPEROR' is a WINTER FLOWER WITH FEW PEERS."

BULBS.

ANEMONE, ST. BRIGID **"Claremont" Super Hybrids** **Mixed Colors**

Every shade of the family is included in this wonderful strain of improved St. Brigid Anemones, ranging from pure white through rose-pink, mauve, blue, violet, and on to vivid scarlet and deep maroon. "Claremont" Anemones are famous for their productiveness and long flowering qualities, and are carefully reselected to only the best colors and long-stemmed true St. Brigid type flowers.

12/- per 100, 6/6 per 50, 3/6 per 24, 2/- per 12.

FREESIA "Stinton's Sunrise"

Beautiful and charming contribution to the colored Freesias, in addition to being

THE LARGEST FLOWERED VARIETY we
have, the **COLOR IS THE MOST VIVID**

The ground color is brilliant orange yellow, with a distinct shade of salmon pink on the lower petal. The large campanulate flowers are carried on long, strong stems; this, combined with the intense Freesia perfume, makes "STINTON'S SUNRISE" extremely valuable either for pot culture or as a cut flower.

Unlike most Freesias this variety bears successional crops of flowers over a period of eight to ten weeks.

5/- per dozen, 37/6 per hundred.

DUTCH IRIS "Wedgewood"

With its clear soft blue, large and well-formed flowers borne on long stems, we consider this to be the most outstanding of all Iris varieties.

It is the earliest of all to bloom, the flowers usually making an appearance in August, when flowers are so scarce.

Large Bulbs, 5/- per dozen; 40/- per hundred.

SEEDS.

PANSY

"Claremont" Special Exhibition Strain

The Finest Pansy in cultivation, saved only from the largest and best shaped flowers of the richest colors. It is impossible to convey an adequate idea of the delightful variations in color and marking of the very handsome flowers produced by our unrivalled strain.

CONTINUED SUCCESS ON THE SHOW BENCHES IS
BEING ACHIEVED WHERE FLOWERS OF THIS
STRAIN ARE EXHIBITED.

Price, 3/6 Per Packet.

CINERARIA HYBRIDA GRANDIFLORA

"Claremont" Marvel Strain

Choice Rich Colors Mixed

A first class strain of sterling merit. The flowers are of perfect form, large size, and great substance, rendering it, without a doubt, one of the finest strains in existence, the habit being extremely robust and compact.

2/6 Per Packet.

SCHIZANTHUS MAXIMUS

Stinton's Large-flowered Hybrids

A remarkably fine strain, the flowers of which show an unusually wide range of colors, including shades of yellow, apricot, pink, salmon, carmine, crimson, mauve, and purple, in various markings and combinations.

2/6 Per Packet.

SEEDS.

Iceland Poppy

Stinton's
"Claremont" Giant
Strain

Mixed Colors

A large flowered and strong growing strain of Iceland Poppy, growing twice the height and yielding flowers twice the size of the original. The colors are also very rich.

1/6 Per Packet.

Stock

"Claremont" Giant
Perfection

A wonderfully fine type of the largest-flowering Ten-week Stocks. Of strong growth and branching habit, very large and fully double flowers, the plants growing to a height of 15 to 18 inches. Choice mixture of the finest reselected colors.

2/6 Per Packet.

Calendula

Double Art Shades

This strain is entirely new in Calendulas. It contains many shades not previously obtainable, ranging from almost pure white, through cream and buff, to yellow and deep orange. Outstanding for massed bedding purposes and excellent for cut flowers.

1/- Per Packet.

Winter Flowering Sweet Peas

A complete list of all named varieties will appear in our Autumn Catalog, but for early planters we offer in this list a splendid mixture of the recently introduced varieties comprising an excellent range of colors.

6d. and 1/- Per Packet.
